Subject: Update: Exide FAQs on the Governor's proposal to expedite funding for residential soil testing and cleanup

Importance: High

Good afternoon Exide Advisory Group and Interested Parties,

Please see the attached FAQs regarding Governor Brown's recently proposed plan to ensure all residential properties including: schools, daycare centers, and parks within a 1.7 mile radius of the Exide facility are tested for lead in soil.

Additionally, we want to share the following updates:

- The next Advisory Group Technical Working Session will be held on Thursday April 28th – The location and time to be confirmed.

- Updated outreach materials regarding soil sampling and remediation are provided on the DTSC website at: www.dtsc.ca.gov/exidecleanup.

- In addition to the regular meetings of the Exide Advisory Group and other public meetings, DTSC is working to establish more consistent and direct dialogue with local governments regarding the following issues:

- Permit streamlining for cleanup efforts
- Joint community engagement and outreach activities and events; (Health Fair/Resource Fair Events at City Halls, parks, or schools; volunteer canvassing for obtaining access agreements)
- The progress of residential soil testing
- Housing and Urban Development (HUD) Lead Hazard Control Grant Applications

- DTSC has trained volunteers from LA Mayor Garcetti's office in support of the Community Resource Fair and Neighborhood Walk in Boyle Heights this weekend, Saturday March 12th from 10:00 AM – 1:00 PM (See the attached flyer).

As a reminder, the Exide Closure Plan and EIR comment period ends Monday March 28, 2016. All information for submitting public comments can be found on the DTSC website:

https://www.dtsc.ca.gov/HazardousWaste/Projects/UpdateExideSuspension.cfm#closure_news.

For additional information please contact Susan Castro-Valenzuela, DTSC Public Participation Specialist @ Susan.Castro-Valenzuela@dtsc.ca.gov (818) 717- 6567.

Thank you for your continued support.

All my best,

Patrice
